Dear Art,

I keep getting reports that the crooks, commercializers and nuts are working with and/or on Abby Man, who has a contract for a King movie for ABC's airing April 4.

The same old ripoff by the same old ripoff artists.

I'd appreciate Mann's address.

And any rundown you can give me on his character - decent guy, traditional Hollywoodian as conceived elsewhere, crook or what?

Lane may have been in the background all along. He is now openly with them and has started to lay court to the Black Caucus. Freed has been coattailing for a long time, with his own hangers-on.

Thanks,
